

DRINK STATIONS & LITTER DROPS

There will be 4 drink stations based on the course. All drink stations will offer water in compostable cups and High5 Aqua Gels (orange & berry flavours)

In addition, at Drink Stations 2 & 3, if you have chosen to be self-sufficient and are carrying your own bottle there will be fill up points at these 2 locations. There will be hand sanitiser available to use before and after you have filled up your bottle.

In order to keep the city tidy we will be implementing set litter drops outside of the water stations, which will mean that there will be 4 opportunities to drop your compostable cups in the compostables bins and the energy gel wrappers in the wrapper recycling bins provided at the side of the course.

DRINK STATIONS & LITTER DROPS
